Repurchase terms

FS Energy Total Return Fund and FS Credit Income Fund are non-diversified, closed-end interval funds. Liquidity is provided to shareholders through quarterly repurchase offers. The Funds offer to repurchase no less than 5% and no more than 25% of shares outstanding shares quarterly at net asset value. Dates are subject to change. Each repurchase offer is subject to the terms and conditions set forth in the applicable repurchase offer notice.

Repurchase period notice: the date on which the repurchase offer period notification will be sent to shareholders via email and/or mail. Investors who have elected electronic delivery will receive their documentation via email. All other investors will receive physical copies in the mail. Advisors will receive an email notification with a way to access copies of the repurchase offer documentation sent to investors for their reference.

Repurchase request deadline: the date the quarterly repurchase offers are scheduled to expire. The Fund must receive all repurchase requests in response to the repurchase offer or withdrawals/modifications of previously submitted repurchase requests for such repurchase offer from shareholders by this date.

Repurchase pricing date: the date on which the Fund determines the net asset value applicable to the repurchase of the Fund's common shares.

Payment by: the date by which the Fund must pay shareholders for any common shares repurchased. Proceeds sent to brokerage accounts may take 7 to 10 days to appear in accounts. Checks are sent via USPS and usually arrive within 7 to 10 days after mailing for registered shareholders. Proceeds sent via ACH to a bank account are typically credited to the bank account in 3 to 5 days for registered shareholders.

Securities offered through ALPS Distributors, Inc. (1290 Broadway, Suite 1100, Denver, CO 80203, member FINRA), the distributor of FS Energy Total Return Fund and FS Credit Income Fund. FS Investment Solutions, LLC is an affiliated broker-dealer that serves as the exclusive wholesale marketing agent for FS Energy Total Return Fund and FS Credit Income Fund. FS Investment Solutions, LLC and ALPS Distributors, Inc. are not affiliated.

An investment in FS Energy Total Return Fund and FS Credit Income Fund (the "Funds") involves a high degree of risk and may be considered speculative. Investors are advised to consider the investment objectives, risks, and charges and expenses of the applicable Fund carefully before investing. The applicable Fund's prospectus contains this and other information about the Fund. Investors may obtain a copy of the applicable Fund's prospectus free of charge at www.fsinvestments.com or by contacting FS Investments at 201 Rouse Blvd., Philadelphia, PA 19112 or by phone at 877-628-8575. Investors should read and carefully consider all information found in the applicable Fund's prospectus and other reports filed with the U.S. Securities and Exchange Commission before investing.

Investing in the Funds involves risk, including the risk that a shareholder may receive little or no return on their investment or that a shareholder may lose part or all of their investment. *FS Energy Total Return Fund Risk Disclosure:* Investments in natural resource companies, MLPs, royalty trusts, equity securities (including dividend-paying securities, private investment in public equity transactions and securities of smaller capitalization companies), debt instruments, high yield instruments and U.S. government debt securities; energy commodity prices and the volume of, and demand for, energy commodities; the highly cyclical nature of the natural resource and energy sectors; fluctuations of interest rates; investments in non-U.S. securities and securities denominated in foreign currencies and the economic impact on the Fund's fixed income investments and investments in illiquid and restricted securities may create such risk. *FS Credit Income Fund Risk Disclosure:* The Fund expects most of its investments to be in securities that are rated below investment grade or would be rated below investment grade if they were rated. Below investment grade instruments are particularly susceptible to economic downturns compared to higher rated investments. The Fund is subject to interest rate risk and will decline in value as interest rates rise. The Fund may use leverage to achieve its investment objective, which involves risks, including the likelihood of NAV volatility and the risk that fluctuations in interest rates on borrowings will reduce the return to investors. In addition to the normal risks associated with investing, investing in international and emerging markets involves risk of capital loss from unfavorable fluctuations in currency values, differences in generally accepted accounting principles or from social, economic or political instability in other nations. The Fund may invest in derivatives, which, depending on market conditions and the type of derivative, are more volatile than other investments and will magnify the Fund's gains or losses.

An investment in shares should be considered only by investors who can assess and bear the illiquidity and other risks associated with such an investment.

No secondary market is expected to develop for each Fund's common shares; liquidity for the common shares will be provided only through quarterly repurchase offers for no less than 5% and no more than 25% of the common shares at net asset value, and there is no guarantee that an investor will be able to sell all the common shares that the investor desires to sell in the repurchase offer. Due to these restrictions, an investor should consider an investment in each Fund to be of limited liquidity.
